### Animals in the Classroom

*£195 for 1 hour, £50 for each additional hour*

We will bring up to 3 different small animals (rabbit, guinea pig & chicken, or as requested) in pet carriers and one member of staff will deliver classroom sessions on chosen topics and answer questions. A great way to strengthen knowledge taught in the curriculum, by discussing topics such as adaptations & habitats, life cycles, food production and many more using the animals as a teaching aid.

"Booked the mobile farm for a school fundraising event. The staff were fab, the animals were friendly and looked very healthy and happy. The animal welfare was obviously paramount to the staff and the children (and parents) thoroughly enjoyed the opportunity to see, touch and hold the animals they brought along. Highly recommend! Thank you!"
