

CORPORATE VOLUNTEERING

A Vauxhall City Farm Corporate Volunteer Day is a great way to get your team involved in the local community. You can help us tackle big jobs on the farmyard that we often don't have the people-power to do ourselves, such as: building animal enclosures, planting for the new season, re-decorating the farm and prepping for our fantastic events!

Key benefits of Corporate Volunteering:
Engage directly with nature, great team building, positive social impact to the local community and it creates an amazing feel-good factor for all!

We offer half day or full day volunteering all year round which includes: staff supervision, materials, tools, protective equipment, secure bag storage and the chance to meet our animals up close!
We also have a wonderful café onsite for any catering requirements.
